

ADVANCED HEALTH AND SAFETY MANAGEMENT

12th - 16th - May 2025 | Hotel Pullman KLCC
Kuala Lumpur - Malaysia

COURSE OVERVIEW

Safety Management has come under considerable scrutiny in the light of recent disasters. However, the **concept of Safety Management Systems** is usually limited to the systematic approach and not to the holistic (all aspect) approach. Safety Management must encompass both the hard and soft aspects of safety to produce an exceptional outcome. Health and Safety has to be managed with the same degree of expertise and to the same standards as other core business activities because of the high cost of failures; Legislation requiring employers to assess and manage risks; Public opinion on risk acceptability moving against poorly managed organizations which impose excessive risks and high-profile disasters which fuel public opinion.

This **Advanced Health & Safety Management** training seminar is based upon Successful Health and Safety Management as produced by the Health and Safety Executive UK but not only, as various topics for High Hazard Plants will be looked into in more detail. **This training course will cover:**

- **Legislation**
- **Successful Health and Safety Management (HSG 65)**
- **COSHH and Hazard Communications**
- **Risk Assessments & HAZOP Studies**

COURSE OBJECTIVES

Participants will be able to:

- Integrate Health & Safety into core business operations.
- Comply with national and international standards.
- Understand key health & safety laws in Europe and the US.
- Foster a positive safety culture across all levels.
- Use behavioral safety methods to boost engagement.
- Apply work permit and Lockout/Tagout procedures.
- Identify hazards and conduct HAZOP studies for risk management.

WHO SHOULD ATTEND

Decision-makers and leaders driving safety, compliance, and operational excellence, including: **C-suite, Directors, Heads, and Managers from:** Health & Safety, Compliance, Operations, Facilities, Production, Engineering, EHS, QA, Risk, OHS, and Maintenance | **Safety-focused Managers, Supervisors & Team Leaders in:** Operations, Compliance, and Auditing

ORGANIZATIONAL IMPACT

By equipping employees with advanced health and safety management skills, organizations foster a culture of professionalism and teamwork that aligns with internationally recognized standards. This leads to more effective risk management, a reduction in workplace accidents, and continuous improvement of safety systems. As a result, businesses experience fewer incidents, less operational downtime, and enhanced profitability, all while meeting legal obligations and building a safer, more engaged workforce.

PERSONAL IMPACT

Participants emerge from the course with a comprehensive understanding of global safety management systems (such as HSG 65), relevant legal frameworks in Europe and the US, and the strategic importance of health and safety policy. They gain practical skills to organize, evaluate, and improve safety systems, and acquire foundational knowledge of risk assessment techniques like HAZOP. This empowers them to drive safety performance and contribute meaningfully to organizational well-being.

COURSE TRAINER

Mr. Dieter Moll

CORPORATE & INDUSTRY LEAD TRAINER

Dieter Moll is a seasoned trainer, instructional designer, and supervisor with a passion for creating engaging, media-rich learning environments. He excels at simplifying complex topics through interactive methods like role-plays, simulations, and case studies, particularly in safety and security training. Based in Cape Town, South Africa, Dieter runs Risk Control Specialist, offering international classroom and On-the-Job (OJT) training. His consulting helps both job seekers and employers gain essential knowledge and tools for success.

- **Safety, Security & Risk Management**
- **Leadership in Training Operations**
- **Adult Learning & Workforce Development**
- **Compliance, Policy & ISO Standards**

A strong believer in the Socratic method, Dieter encourages learning through inquiry, promoting deeper understanding and retention. He integrates Adult Learning Theory into every session, using structured, practical, and dynamic approaches to ensure effective learning. As an instructional designer, he develops interactive courses, manuals, and job aids, supporting real-world application and career development. Dieter has also led training departments, managed operations, and developed high-tech learning facilities, consistently driving performance and teamwork.

His expertise spans risk management, policy writing, safety compliance, and crisis response. He's a certified ISO lead auditor with experience in hospitality, industrial, and security sectors. Dieter's mission is to deliver transformative, empowering training that inspires confidence and long-term growth. A lifelong learner, he stays at the forefront of training innovation to help individuals and organizations thrive.

ADVANCED HEALTH AND SAFETY MANAGEMENT

12th - 16th - May 2025 | Hotel Pullman KLCC
Kuala Lumpur - Malaysia

COURSE CONTENT

DAY 1: LEGISLATION FOR HEALTH AND SAFETY

- Introduction
- Legislation for Health and Safety
- Legislation for High Hazard Industries
- Process Safety Management (OSHA 29 CFR 1910.119)
- The Seveso Directive (EU Directive)
- Introduction to Safety Management Systems
- The Outer System Environment
- The Inner System Environment

DAY 2: POLICY AND SAFETY CULTURE

- Policy for Health and Safety
- Responsibility for Accidents Rest with Management
- Organisational Factors
- Human Factors
- Job Factors
- Organisation for Health and Safety
- Control, Cooperation, Communication, Competence
- Safety Culture

DAY 3: PLANNING AND IMPLEMENTATION

- Planning and Implementation
- Management Arrangements
- Risk Control Systems – Inputs, Processes, Outputs
- Risk Assessments
- Work Permit Systems & LO / TO
- Hazard Communication
- COSHH Assessments
- Exercise

DAY 4: MEASURING PERFORMANCE & HAZOPS

- Measuring Performance
- Active Monitoring Systems
- Reactive Monitoring Systems
- Audits & Reviews
- Case Study of the Flixborough Disaster
- Introduction to HAZOP
- Element Selection
- Exercise

DAY 5: BEHAVIOURAL SAFETY

- Taylor, Herzberg, Vroom, Geller, Maslow
- ABC Analysis – Antecedents, Behaviour & Consequences
- Natural Penalties and Consequences
- Identifying Critical Behaviours
- Observing Behaviours
- Feedback on Observations
- Case Study: BP Texas City
- Course Evaluation and Summary

TRAINING METHODOLOGY

This training seminar combines a variety of methods to enhance learning:

Presentations: PowerPoint slides to introduce key concepts and best practices.

Case Studies: Real-world examples to demonstrate the effectiveness of Safety Management Systems.
Videos: Engaging visuals to reinforce safety principles and lessons.

Active Participation: Group discussions and interactive sessions will encourage participants to share experiences, improving learning through practical insights.
